Residents of the district of Sucker Garden has made their concerns known to my person regarding the lack of proper ventilations in the Melford Hazel auditorium. With the recent incidents of the Immigration Officer and the passing of a young athlete, I can only understand the concerns of the residents. This has prompted my person to query through the President of Parliament, the responsible minister of sports and the Minister of Health on the plans to address this issue.

Considering the recent incidents, is there a plan in place to install proper ventilations in all of the sports auditoriums? If yes when?

Is pre-examinations for athletes a prerequisite for both schools and sports organizations?

Will there be a joint awareness campaign done between the Ministry of Sports and Health to ensure that all athletes and parents are cognizant of the importance of having physicals done before participating in any sport.

I look forward in receiving a prompt response to the aforementioned.

With kind regards,

MP Leona Martin-Romeo
